Harmoniq

Harmoniq is a music app that is designed to encourage diversity in musical selections by making it easier for users to find music and concert information for not only their selected artist but for other artists in the same or similar genres.

To experience Harmoniq:

Enter an artist's name and click the "Artist" button to get twitter channel information.

You can also enter a song name and click the "Song Name" button to get information on that song and other similar songs.

Click the Event icon in the results section to get relevant concert and ticket information.

Enjoy.
